

# ABOUT US

Fauna del Noroeste is a non-profit organization in Baja California that promotes the sustainable management of natural resources.

## LINES OF ACTION

research

restoration

education

We strive to **connect knowledge, conservation, and community** by promoting **solutions** that balance human development with the **preservation of ecosystems** in northwestern Mexico—leaving a lasting natural legacy for future generations.

# FAUNA DEL NOROESTE

*Conserving the wildlife and its habitats*

## WHAT MOVES US

The **loss of biodiversity** threatens ecosystems, impacting both iconic and essential species. At Fauna del Noroeste A.C., our goal is to bridge this gap by generating **scientific information** for effective **conservation and restoration actions**

15+

species benefiting from our projects

30+

sites of action

130+

workshops and talks offered to the community

300+

donors and collaborators

## A SPECIAL APPROACH

**Less charismatic species**, such as amphibians and reptiles, are also **essential** for ecological balance. We believe that every organism deserves attention and strive to inspire lasting change in biodiversity protection

## TAKE PART

**DONATING**  
as support to help fund or projects

**VOLUNTEERING**  
in conservation and restoration projects

**RESPECTING**  
all living creatures
